Flex Printing

Instructions for Team:

Please find the *Nutty_Squirrel_Arena.pdf* file within *Task 2/Flex Printing* folder.

❖ You must carry *Nutty_Squirrel_Arena.pdf* file in any storage device to the vendor who prints the flex sheet.

❖ Dimensions of the arena can be viewed in .pdf file by pressing CTRL + D in Adobe Reader.

❖ Here are the dimensions for your reference and verification:

➢ **Full Arena: 201 cm x 243 cm (6.6 ft x 8 ft)**

➢ **Line Width**: **1.2 cm**

➢ **Nodes**: **3 cm x 3 cm**

❖ Team is not allowed to make any changes in the .pdf files. Any team making such manipulations will be disqualified from the competition.

Instructions for the Vendor:

❖ The vendor must print the arena directly from the .pdf file.

❖ The vendor cannot make any changes in the .pdf file provided for printing.

❖ The vendor must not change the default color profiles of arena while printing.

❖ If the vendor is using the CMYK color profile for printing, he/she must set the C=100, M=100, Y=100, K=100 value as that would give a perfect black color for the black lines of the arena.

General Instructions for keeping flex sheet in good condition:

❖ Leave sheet open for about 30 minutes to dry in air after printing. After this, you can roll it and bring it home.

❖ **Do not fold the flex sheet.** Always keep it rolled after using it.

❖ You will be using the printed flex sheet throughout the competition, so teams are advised to store the rolled up flex sheet in a dry, safe place.

Submission Instructions:

❖ **Print the arena on the flex sheet as per the instructions given.**

❖ **Click a picture of your printed Arena (with full view of the arena) using a camera. This picture must clearly depict the printed flex sheet.**

❖ **Upload the picture as instructed on the portal.**

ALL THE BEST!
